Preface

There is a wide difference between theory and practical. If one has only theoretical background of any subject, one would not succeed in own aim therefore it is necessary for any person to have acceptable practical knowledge of the concerned subject. As I know BCA is a course based on “Information Technology” and it is totally practical field. With only theoretical knowledge one can’t be succeeded or one can’t be on the peak position.

In the course of BCA designed by the “**Noble University**” they have taken full care of these things and designed the course in such a manor with which student can get theoretical and practical both type of knowledge perfectly. According to the rules & regulation of “**Web Development**”, I have a subject named “**Vimal Agency**”. In which we have to create a web project of any institute or industry.

As an **BCA** student, I have gathered general information about Whole Admission Process. Then I decided to develop the site for that. In this site you can start admission to any collage very easily. You can also put the advertisement on this site.

In this project report I have covered all the information, which is required for the web project of **BCA** student.

I have tried as my best to present this project report in such a way that it makes easy to understand the project work.

Acknowledgment

As students, it was really a big task for us to prepare the project. I am very grateful to all who helped me in preparing this project. I was fortunate to get guidance and kind help from our professor **Mr. Paresh Limbad.**

I would like to especially thank our Dean and Project Guide for providing such a great platform for this project. We are very happy to provide an opportunity for a project in HTML, CSS. I am grateful for these suggestions. I am sincerely grateful to them.

Our Social Networks
The company itself is a very successful company. Because, to some

Description:

The homepage of **Vimal Agency** presents a clean, visually appealing layout for an online snacks store, primarily promoting **Balaji** products. The header includes a simple navigation bar with links to **Home, Products, Category, About Us**, and **Contact Us**, providing easy access to different parts of the website.

At the top, a promotional banner announces a discount of **up to 10%**, attracting customer attention. This section features a compelling call-to-action button labelled "**Visit More**", encouraging users to explore further. The visual focus is a group image of snack packs, showcasing variety and brand recognition.

"Our Best Products" section is the core of the homepage. It displays four popular items:

1. **Crunchex – Chilli Tadka**
2. **Farali Chevdo**
3. **Aloo Sev**
4. **Masala Sev Murmura**

Each product is presented with an image, short description, and price (10% off), along with shopping cart icons, suggesting e-commerce functionality. Beneath the product showcase, four key service features are highlighted:

- **Free Shipping** on orders over ₹1000
- **Free Returns** within 30 days
- **Fast Delivery** worldwide
- **Big Choice** of products

These benefits reinforce customer trust and convenience.

The footer contains essential contact information, including the agency's address, email, and links to social media platforms. Useful site links like **Terms of Service** and **Privacy Policy** are also provided.

Overall, the homepage is user-friendly and visually balanced, offering clear product visibility and straightforward navigation. It's an effective front for a snack-focused e-commerce platform, especially appealing to local customers familiar with the Balaji brand.

Page 10

Description:

The image provided showcases the full **Products Page** of **Vimal Agency**, an online platform dealing in a wide assortment of **snack food items**, primarily from the well-known Indian brand **BALAJI WAFERS**. This visual offers a comprehensive view of the store's catalogue, organized neatly into several snack categories. Each product is displayed with its name, image, description, and price, making the page both informative and easy to navigate. This layout helps customers quickly find their desired snack or discover new ones.

Page Overview and Design

At first glance, the page layout is clean and structured. The **header** remains consistent with the homepage, containing the brand name **Vimal Agency** on the top left, and navigation links like **Home, Products, Category, About Us, and Contact Us** on the top right. This ensures ease of navigation for the user.

The page background is light blue-grey, which allows the vibrant product images to stand out prominently. Each product is housed in a uniform rectangular card, which contains:

- The **product image**
- The **product name**
- A **brief description**
- The **price**, which is mostly ₹5 or ₹10
- A **shopping cart icon** indicating it's an e-commerce-ready platform

Products are grouped into relevant categories, each marked with a bold title, making browsing easy and intuitive.

Product Categories and Highlights

1. Wafers

This is the largest section, reflecting the popularity of potato wafers in the Indian snack market. Some of the major items include:

- **Crunchem – Simply Salted**
- **Crunchex – Chilli Tadka**
- **Crunchem – Tomato Twist**
- **Crunchem – Chaat Chaska**
- **Crunchem – Cream & Onion**
- **Amaize – Different Flavours of Nachos**

These snacks are known for their crispy texture and bold flavours. The naming, such as “Crunchem” and “Crunchex,” evokes a sense of crunchiness and fun, aligning with what customers expect in wafers. Each product comes at a price point of ₹10, making them affordable for all age groups.

2. Western Snacks

This section blends Indian preferences with global snacking trends. Products like:

- **Yumstix**
- **Pop Rings**
- **Scoopitos**
- **Chataka Pataka**
- **Punjabi.Tadka**
- **Snackem Fryms**

These snacks use familiar Western formats (like rings, sticks, or Fryms) but are adapted to Indian flavours. This category appeals especially to kids and young adults who enjoy fusion

3. Snack Pellets

These are crunchy, extruded snacks, often enjoyed as accompaniments or casual munchies. Featured items include:

- **Ponga Masala**
- **Wheelos Masala**
- **Pillows**

Priced mostly at ₹5 or ₹10, these snacks are popular in rural and urban India alike due to their flavour intensity and low cost.

4. Namkeen

This is one of the most diverse and culturally rooted categories. Items here include:

- **Farali Chevdo (for fasting days)**
- **Aloo Sev**
- **Masala Sev Murmura**
- **Khatta Meetha Mixture**
- **Chavanu, Bhujia, Gathiya, Sev, Papdi**

With both spicy and sweet-salty options, this section caters to traditional Indian tastes. Descriptions like “Enjoy Farali Chevda – Spicy, crispy, and yummy” help attract customers seeking familiar flavours. Prices are mostly ₹5 to ₹10, with a few premium items at ₹50.

5. Peanuts

A smaller yet important category, it includes:

- **Salted Peanuts**
- **Masala Peanuts**

Both options are priced at ₹10 and are classics for tea-time snacking or light evening munching. The simple packaging and product type show that Vimal Agency aims to cater to daily snacking habits.

6. *Khakhra*

This section highlights traditional Gujarati snacks that are thin, crunchy, and roasted. Available variants:

- **Jeera, Methi, Masala, Plain Khakhra**
- **Diet Khakhra for health-conscious buyers**

Each comes with a short description and is reasonably priced. Khakhra are often eaten as a breakfast item or low-calorie snack.

7. *Wafer Biscuits*

This sweet snack section includes:

- **Chocolate, Orange, Strawberry, Vanilla Wafers**

These are targeted mostly at children and students, as they're easy to carry and enjoyable. Most are priced at ₹5 ideal for school-time snacks or party packs.

8. *Confectionery*

Featured products include:

- **Imly & Nimbu pani**

This section shows Vimal Agency's effort to appeal to sweet teeth. These items are ideal for gifting, children's treats, or quick dessert-like options.

9. Gippi Noodles

A relatively unique offering, this section includes:

- **Gippi Noodles**

These quick-cooking noodles and pasta products indicate Vimal Agency's move beyond snacks into the convenience food segment. Such items cater to working individuals, college students, or anyone looking for a fast meal option.

User Interface and Experience

The site design is clearly focused on **user convenience**:

- **Product categories** are well-defined and visually separated.
- All items are displayed with **bright, high-quality images**, ensuring visual clarity.
- **Pricing** is prominently shown, helping users make fast decisions.
- **Cart buttons** below each product indicate seamless online shopping functionality.

The bottom of the page features a **footer** that mirrors the homepage, offering:

- **Business Address & Contact Email**
- **Quick Links** to Home, About Us, Terms of Service, Privacy Policy
- **Social Media Icons**, allowing customers to follow updates or promotions on platforms like WhatsApp, Instagram, Facebook, Twitter, etc.

LIMITATION OF THE PROJECT

4. Limitation of the Project:

- There is no integration with a physical retail store, so no offline order opportunity.
- The availability of variety is still limited and may not cover all type of products.
- Booking services are restricted to certain regions, affecting accessibility for some users.
- Currently, there is no dedicated mobile app for a smoother user experience. A mobile approach could enhance accessibility and convenience.
- While security measures are in place, unauthorized access, fake bookings, or fraudulent activities could still pose risks without a more advanced verification system.

FUTURE SCOPE OF PROJECT

5. Future scope of the Project

- Improvement in taste of the product and service towards the customer.
- Expand in the products list and introduction of traditional Papad and spices.
- Increase in consumer satisfaction.
- Proper focus on automatic plant and fast deliveries.
- Focus on Smart work instead of hard work.
